Taiwan–Japan Ecology Workshop

PROGRAMME

6–8 NOVEMBER 2026

ACADEMIA SINICA, TAIPEI

v3 · Updated 30 Oct 2026, 15:02 (Taipei, UTC+8)

THE 8TH

Taiwan–Japan Ecology Workshop

6–8 November 2026 · Academia Sinica, Taipei

Programme v3

Updated 30 October 2026, 15:02 (Taipei, UTC+8)

INFORMATION

DATES	Friday 6 – Sunday 8 November 2026
VENUE	Institute of Biomedical Sciences (IBMS), Academia Sinica, 128 Academia Road, Section 2, Nangang, Taipei
REGISTRATION	IBMS 1F lobby · Fri 11:00–17:00 · Sat 08:30–18:00 · Sun 08:30–12:25
LECTURES	Opening and plenary lectures in the B1C Auditorium (IBMS B1, 264 seats)
PARALLEL SESSIONS	B1C Auditorium and B1B Auditorium (IBMS B1, 90 seats; seating is limited)
POSTERS	Interdisciplinary Research Building, 1F (next to IBMS)
LUNCH	Saturday and Sunday, IBMS 1F dining area
BANQUET	Saturday 7 November, 19:00–21:00 (Interdisciplinary Research Building, 7F)
TALK FORMATS	Plenary lectures 50 min (40 + 10 min questions) · Contributed talks 15 min (12 + 3) · Symposium talk lengths and order are set by each symposium's organizers
POSTERS	A0 portrait: 84.1 cm wide × 118.9 cm high. See the presenter guidelines on pages 17–18.

PROGRAMME AT A GLANCE

Friday 6 November 11月6日（金）

TIME	B1C AUDITORIUM 264 seats	B1B AUDITORIUM 90 seats
11:00–17:00	*Registration · IBMS 1F lobby*	
13:00–13:10	Opening	
13:10–14:00	Plenary Lecture 1 · Chih-hao Hsieh 謝志豪	
14:05–14:50	C1 Climate Change and Invasions	C2 Range Limits, Long-term Change and Island Conservation
14:50–15:20	*Coffee break*	
15:20–17:20	S1 Host–Symbiont Interactions in a Changing W orld: Mechanisms, E volution, and Ecological Consequences	C3 Aquatic Ecosystems: From Freshwater to the Sea
17:30–19:30	Poster Session 1 with drinks · P01–P28 (Interdisciplinary Research Building, 1F)	

Saturday 7 November 11月7日（土）

TIME	B1C AUDITORIUM 264 seats	B1B AUDITORIUM 90 seats
08:30–18:00	*Registration · IBMS 1F lobby*	
08:50–09:40	Plenary Lecture 2 · Kazuki Tsuji 辻 瑞樹	
09:40–10:30	Plenary Lecture 3 · Hiroko K urokawa 黒川紘子	
10:30–11:00	*Coffee break*	
11:00–13:00	S2 Behavior of Social Insects: I ts Ecological and Applied Biological Perspectives	C4 Plants, Communities and Landscapes
13:00–14:00	*Lunch · IBMS 1F dining area*	
14:00–16:00	S3 Recent Developments and M ethodological Innovations in Biotic Interactions and N atural History Research	S4 From Ecology to M olecules: Evolutionary Mechanisms Underlying Adaptation and Biodiversity
16:00–18:00	Poster Session 2 with drinks · P29–P56 (Interdisciplinary Research Building, 1F)	
18:00–19:00	**Guided exhibition tour · Dr. Zong-Yu Shen** *Island Flight: Rediscovering Taiwan's Butterflies and Moths* Meet at 17:50 · 1F lobby, Interdisciplinary Research Building Optional participation; no advance registration required.	
19:00–21:00	*Banquet (Interdisciplinary Research Building, 7F)*	

Sunday 8 November 11月8日（日）

TIME	B1C AUDITORIUM 264 seats	B1B AUDITORIUM 90 seats
08:30–12:25	*Registration · IBMS 1F lobby*	
09:00–11:00	S5 Beyond Direct Competition in S pecies Coexistence: The Role of Multitrophic Interactions	C5 Behaviour and E volution
11:00–11:30	*Coffee break*	
11:30–12:20	Closing Plenary Lecture · Chien-Hsiang Lin 林千翔	
12:20–12:25	The 9th Taiwan–Japan Ecology Workshop: Kyushu University, 2028 · Tomonori Kume 久米朋宣	
12:25	*Lunch · IBMS 1F dining area · close of the workshop*	

PLENARY LECTURES

All plenary lectures are held in the B1C Auditorium · 40 minutes plus 10 minutes of questions

PLENARY LECTURE 1

Friday 6 November
13:10–14:00

PL1

Chih-hao Hsieh 謝志豪

National Taiwan University

Empirical dynamic modeling towards mechanic understanding, forecasting and early warning for ecosystem dynamics

PLENARY LECTURE 2

Saturday 7 November
08:50–09:40

PL2

Kazuki Tsuji 辻 瑞樹

University of the Ryukyus

A Process-Based Field Approach Linking Classical Theory of Sociobiology and Classical Theories of Population and Community Ecology

PLENARY LECTURE 3

Saturday 7 November
09:40–10:30

PL3

Hiroko Kurokawa 黒川紘子

Kyoto University

From plant strategies to ecosystem functioning: insights from litter decomposition

CLOSING PLENARY LECTURE

Sunday 8 November
11:30–12:20

Closing

Chien-Hsiang Lin 林千翔

Academia Sinica

When the ocean gets too warm: lessons from ancient fish communities

DAY 1

Friday 6 November 2026

2026年11月6日（金）

13:00–13:10 Opening — B1C AUDITORIUM

13:10–14:00 PLENARY LECTURE 1 **Chih-hao Hsieh 謝志豪** — B1C AUDITORIUM

Empirical dynamic modeling towards mechanic understanding, forecasting and early warning for ecosystem dynamics

PARALLEL SESSIONS · 14:05–14:50

14:05–14:50 B1C AUDITORIUM C1 · CONTRIBUTED TALKS

Moderator: **Takefumi Nakazawa 仲澤剛史**

Climate Change and Invasions

14:05–14:20 **C1-01**	**Mu-Hsiang Wang 王睦翔** National Taiwan University	Climatic warming drives directional changes in fish population dynamics across the Atlantic Ocean
14:20–14:35 **C1-02**	**Namfon Booncharoen 李雨欣** National Cheng Kung University	Bridging invasion ecology and climate tracking: Biotic interactions modulate early establishment success
14:35–14:50 **C1-03**	**Gakuto Nihei 仁平岳登** Mie University	Plasticity within and across generations: diversity of larval feeding morphology in the two Papilio butterflies

14:05–14:50 B1B AUDITORIUM C2 · CONTRIBUTED TALKS

Moderator: **Shan-Dar Tao 陶善達**

Range Limits, Long-term Change and Island Conservation

14:05–14:20 **C2-01**	**Shan-Dar Tao 陶善達** National Museum of Natural Science, Taiwan	Cold tolerance in two tropical gecko species at their northern range limit in the Ryukyu Archipelago: implications for Bogert's effect in Gehyra mutilata
14:20–14:35 **C2-02**	**Rita S.W. Yam 任秀慧** Department of Bioenvironmental Systems Engineering, National Taiwan University	2500 years of fossil Chironomid assemblages reflect non-recoverable ecosystem change of a high mountain lake in Taiwan under historical forest harvesting and global climatic change
14:35–14:50 **C2-03**	**Zong-Yu Shen 沈宗諭** The University Museum, The University of Tokyo	Divergent fates after parallel historical isolation: habitat area predicts demographic resilience in Japan's national butterfly across replicated continent-island systems

14:50–15:20 *Coffee break*

PARALLEL SESSIONS · 15:20–17:20

15:20–17:20 B1C AUDITORIUM S1 · SYMPOSIUM

Times are approximate and may vary slightly.

Host–Symbiont Interactions in a Changing World: Mechanisms, Evolution, and Ecological Consequences

ORGANIZERS Hsuan-Wien Chen 陳宣汶 (National Chiayi University) · Takuya Sato 佐藤拓哉 (Kyoto University)

15:20–15:25 *Opening remarks · Takuya Sato 佐藤拓哉*

15:25–15:40 **S1-01**	**Chi-Ying Lee 李奇英** National Changhua University of Education	A zombie parasitism: How a parasitic barnacle takes over its hosts?
15:40–15:55 **S1-02**	**Ming-Chung Chiu** Department of Entomology, National Taiwan University	Phenotypic Similarities between Parasitized Mantids and Male-Specific Wing Dimorphism: Juvenile Hormone as a Possible Shared Regulatory Mechanism
15:55–16:10 **S1-03**	**Shotaro Tani 谷聖太郎** Center for Ecological Research, Kyoto University	Natural history and comparative phylogeography of horsehair worms, parasites cycling between aquatic and terrestrial hosts
16:10–16:25 **S1-04**	**Asami Kajimoto 梶本麻未** Hiroshima University	Sex-specific reproductive strategies in the rhizocephalan
16:25–16:40 **S1-05**	**Takumi Takamatsu 高松巧** Center for Ecological Research, Kyoto University	A unique mechanism of male-killing induced by symbiotic viruses
16:40–16:55 **S1-06**	**Takanori Nishino 西野貴騎** Kyoto University	Entomopathogen-related fungal symbionts on female hindleg of dinidorid stinkbugs
16:55–17:10 **S1-07**	**Hsuan-Wien Chen 陳宣汶** National Chiayi University	A slightly more complicated model for pattern of parasitism in nature
17:10–17:20	*Questions and discussion*	

15:20–17:20 B1B AUDITORIUM C3 · CONTRIBUTED TALKS

Moderator: **Huiyu Wang 王慧瑜**

Aquatic Ecosystems: From Freshwater to the Sea

15:20–15:35 **C3-01**	**Wan-Hsuan Cheng 鄭琬萱** National Taiwan University	The expansion of community level niche breadth in response to long term nutrient stress enhances ecosystem multifunctionality
15:35–15:50 **C3-02**	**Huiyu Wang 王慧瑜** Academia Sinica	Fish migratory strategies drive contrasting life-history and demographic responses to environmental gradients
15:50–16:05 **C3-03**	**Sing-Pei Yu 余倖霈** National Cheng Kung University	Long-term variation in trait allometry across a population bottleneck and ecosystem change in a freshwater goby
16:05–16:20 **C3-04**	**Pei-Chi Ho 何珮綺** Institute of Oceanography, National Taiwan University	Effect of nutrient supply and prey composition on plankton stoichiometry and trophic structure in marine food webs
16:20–16:35 **C3-05**	**Wei-Ting Chen 陳韋廷** Department of Bioenvironmental Systems Engineering, National Taiwan University	Light regime and the growth–grazing balance of pico- and nanoplankton over the Taiwan Bank
16:35–16:50 **C3-06**	**Yu-An Chen 陳昱安** Atmosphere and Ocean Research Institute, The University of Tokyo	Modeling Lipid-Driven Population Dynamics of Copepod Neocalanus plumchrus in the Subarctic Pacific
16:50–17:05 **C3-07**	**Guan-Yan Chen 陳冠言** Hawaii Institute of Marine Biology	Influence of Habitat Morphology on Coral Recruit Distribution
17:05–17:20 **C3-08**	**Yu Ting Lin 林玉婷** Sesoko Marine Research Station, Tropical Biosphere Research Center, University of the Ryukyus	Taxon- and size-specific variation in coral growth between tropical and subtropical-temperate reefs of the western Pacific

17:30–19:30 *Poster Session 1 with drinks · P01–P28 (Interdisciplinary Research Building, 1F)*

DAY 2

Saturday 7 November 2026

2026年11月7日（土）

08:50–09:40 PLENARY LECTURE 2 **Kazuki Tsuji** 辻 瑞樹 — B1C AUDITORIUM

A Process-Based Field Approach Linking Classical Theory of Sociobiology and Classical Theories of Population and Community Ecology

09:40–10:30 PLENARY LECTURE 3 **Hiroko Kurokawa** 黒川紘子 — B1C AUDITORIUM

From plant strategies to ecosystem functioning: insights from litter decomposition

10:30–11:00 *Coffee break*

PARALLEL SESSIONS · 11:00–13:00

11:00–13:00 B1C AUDITORIUM S2 · SYMPOSIUM

Times are approximate and may vary slightly.

Behavior of Social Insects: I ts Ecological and Applied Biological P erspectives

ORGANIZERS Kazuki Tsuji 辻 瑞樹 (University of the Ryukyus) · Shigeto Dobata 土畑重人 (The University of Tokyo) · Shu-Ping Tseng (National Taiwan University)

Each talk: 20 minutes, including discussion. A 20-minute session buffer allows 2–3-minute extensions and an optional 5–10-minute coffee break after the third talk.

11:00–11:20	S2-01	**Tomohiro Nakazono** 中園大博 Kyoto University	Resource access in spatially structured nests: Queen-associated areas enhance provisioning by workers to a termite-associated rove beetle
11:20–11:40	S2-02	**Chia-Chien Wu** 吳佳倩 National Chung Hsing University	Elevational shifts in intraspecific body size and mandibular morphology of termites
11:40–12:00	S2-03	**Riou Mizuno** 水野理央 Faculty of Agriculture, Kagawa University	The hunting behavior spectrum of the tiny trap-jaw ant S trumigenys: wandering to ambush
12:00–12:10		**Optional coffee break (5–10 min)**	
12:10–12:30	S2-04	**Wan-Yi Chen** 陳琬鎰 Department of Entomology, National Taiwan University	Exploring the Physiological M echanisms Underlying S ublethal Imidacloprid-Induced Early F oraging Behavior in Honey Bee Workers
12:30–12:50	S2-05	**Ching-Chen Lee** 李錦城 National Changhua University of Education	What we know so far about the invasive yellow crazy ant, Anoplolepis gracilipes (Hymenoptera: Formicidae): F rom trophic egg production to management
12:50–13:00		**Discussion / buffer time**	

11:00–13:00 B1B AUDITORIUM C4 · CONTRIBUTED TALKS

Moderator: **Chang-Yu Chang** 張昌祐

Plants, Communities and Landscapes

11:00–11:15	C4-01	**Juchieh Wu** 吳儒杰 National Taiwan University	Spatial Facilitation as Biotic Response to Chronic Wind S tress in Cloud Forest Communities
11:15–11:30	C4-02	**Yan-Han Wu** 吳衍翰 National Taiwan University	Fog Frequency Promotes Functional Trait Diversity in M ontane Cloud Forests of Northern Taiwan
11:30–11:45	C4-03	**Bo-Moon Kim** 金普文 Department of Biological Sciences, Tokyo Metropolitan University	Dispersal M odulates the Effects of Kin Recognition on Biodiversity

11:45–12:00 **C4-04**	**Chang-Yu Chang 張昌祐** Academia Sinica	Decomposing Symbiotic Trait Variation: Dependence on Host Evolution
12:00–12:15 **C4-05**	**Chao-Li Huang 黃兆立** National Cheng Kung University	Harnessing the "Earth's Breath": Translating Plant-Microbiome Negotiations in Pine Evolution
12:15–12:30 **C4-06**	**Koki Katsuhara 勝原光希** Okayama University	Urbanised landscape and microhabitat differences can influence flowering phenology and synchrony in an annual herb
12:30–12:45 **C4-07**	**Chun-Wen Yang 楊珺雯** Institute of Ecology and Evolutionary Biology, National Taiwan University	University campuses as model systems for understanding species-specific responses of frogs to urban landscapes
12:45–13:00 **C4-08**	**Man-Lin Lin 林蔓琳** Institute of Ecology and Evolutionary Biology, National Taiwan University	Road mortality of snake across heterogeneous landscapes in subtropical Asia

13:00–14:00 *Lunch* IBMS 1F DINING AREA

PARALLEL SESSIONS · 14:00–16:00

14:00–16:00 B1C AUDITORIUM S3 · SYMPOSIUM

Times are approximate and may vary slightly.

Recent Developments and Methodological Innovations in Biotic Interactions and Natural History Research

ORGANIZERS Yun Hsiao 蕭昀 (National Chung Hsing University) · Takefumi Nakazawa 仲澤剛史 (National Cheng Kung University) · Haruka Yamazaki 山崎遥 (University of Tsukuba)

14:00–14:05	*Introduction · Takefumi Nakazawa 仲澤剛史*	
	Chair · Yun Hsiao 蕭昀	
14:05–14:23 **S3-01**	**Takefumi Nakazawa 仲澤剛史** National Cheng Kung University	Emergent nestedness in life-history-coupled herbivory and pollination networks
14:23–14:41 **S3-02**	**Haruka Yamazaki 山崎遥** University of Tsukuba	Nectar source navigation strategies in tiny flower-visiting fruit flies
14:41–14:59 **S3-03**	**Shintaro Aritaki 有瀧慎太朗** Graduate School of Bioagricultural Sciences, Nagoya University	Accumulation and Release of the Chemicals Responsible for the Characteristic Response of Cats in Feline-Attracting Plants
	Chair · Haruka Yamazaki 山崎遥	
14:59–15:17 **S3-04**	**Po-An Lin 林柏安** National Taiwan University	How does news of herbivore attack travel through a field of plants?
15:17–15:35 **S3-05**	**Jh-Yu You 游智宇** National Chung Hsing University	Eavesdroppers in the Dark: Basic Research and Future Perspectives on Frog-biting Midges in Taiwan
15:35–15:53 **S3-06**	**Chih-Chieh Yu 游旨价** Field Museum of Natural History	Contrasting biogeographic histories of montane plant lineages in Taiwan and the Japanese Archipelago

14:00–16:00 B1B AUDITORIUM S4 · SYMPOSIUM

Times are approximate and may vary slightly.

From Ecology to Molecules: Evolutionary Mechanisms Underlying Adaptation and Biodiversity

Organizers & session chairs (Talks 1–6) · Tosuke Sakagami 坂上登亮 (Academia Sinica) · Natsumi Maruoka 丸岡奈津美 (Tohoku University)

Tosuke Sakagami will chair all six talks if Natsumi Maruoka is unable to attend.

S4-01	**Tosuke Sakagami 坂上登亮** Biodiversity Research Center, Academia Sinica	Convergent evolution of animal photosymbiosis through co-option of an ancestral endodermal program revealed in acoels

S4-02	**Taiga Uchida** 内田大賀 Atmosphere and Ocean Research Institute, The University of Tokyo	Genomic insights into the mechanisms and evolution of extracellular photosymbiosis in giant clams
S4-03	**Kamal Md Mostafa** Institute of Molecular Biology, Academia Sinica	Host lipid remodeling and fatty-acid carbon transfer in the *Paramecium bursaria–Chlorella* photosymbiosis
S4-04	**Takumi Yokomizo** 横溝匠 Center for Ecological Research, Kyoto University	Plasticity of biological rhythms underlying the colonization of tidal environments in a freshwater snail
S4-05	**Takamasa Yoneyama** 米山貴将 Utsunomiya University	Morphological adaptation of the filter screen in *Daphnia* under low-nutrient conditions
S4-06	**Natsumi Maruoka** 丸岡奈津美 Tohoku University	Ecological significance and molecular basis of variation in diapause strategies in natural *Daphnia* populations

16:00–18:00 *Poster Session 2 with drinks · P29–P56* *(Interdisciplinary Research Building, 1F)*

18:00–19:00

Guided exhibition tour

Island Flight: Rediscovering Taiwan's Butterflies and Moths
「島嶼飛行－臺灣蝶蛾再發現」特展

Guided by **Dr. Zong-Yu Shen** 沈宗諭

Meet at **17:50 on Saturday 7 November**
1F lobby, Interdisciplinary Research Building

Optional participation; no advance registration required.

About the exhibition

19:00–21:00 *Banquet (Interdisciplinary Research Building, 7F)*

DAY 3

Sunday 8 November 2026

2026年11月8日（日）

PARALLEL SESSIONS · 09:00–11:00

09:00–11:00 B1C AUDITORIUM S5 · SYMPOSIUM

Times are approximate and may vary slightly.

Beyond Direct Competition in S pecies Coexistence: The Role of Multitrophic Interactions

Organizers & session chairs Po-Ju Ke (National Taiwan University) · Naoto Shinohara (Okinawa Institute of Science and Technology) · Keiichi Morita (Hokkaido University)

Each speaker: 15 minutes for the presentation + 5 minutes for questions.

09:00–09:20 **S5-01**	**Keiichi Morita 森田慶一** Hokkaido University, Japan	How intraspecific variation and plant-microbe interactions affect the assembly of plant competitive communities
09:20–09:40 **S5-02**	**Lily Cheng Clavel 鄭俐俐** National Sun Yat-sen University, Taiwan	Interactions between understory cover and the negative dependence of conspecific density on tree seedling dynamics: the roles of shade tolerance and mycorrhizal type
09:40–10:00 **S5-03**	**Gaku Hirayama 平山樂** University of Tsukuba, Japan	Plant–pollinator interactions mediated by floral traits may shape the assembly of plant communities
10:00–10:20 **S5-04**	**Feng-Hsun Chang 張峰勳** National Taiwan University, Taiwan	Top-down mortality reshapes the environmental niches of marine picoplankton
10:20–10:40 **S5-05**	**Chun-Chia Chou 周均珈** National Taiwan Normal University, Taiwan	Shaping population and community persistence: asymmetric competition, intriguing predation, and bottom-up regulation
10:40–11:00 **S5-06**	**Takahisa Ueno 上野尚久** National Institute of Genetics, Japan	Integrating fluctuation-dependent coexistence and biodiversity–ecosystem functional stability relationships

09:00–10:30 B1B AUDITORIUM C5 · CONTRIBUTED TALKS

Moderator: **Hiroyuki Shimoji** 下地博之

Behaviour and E volution

09:00–09:15 **C5-01**	**Meng-Ching Ko 柯孟青** Max Planck Institute for Biological Intelligence	Frugivory set the stage: genomic and physiological changes underlying a sexually selected bird radiation
09:15–09:30 **C5-02**	**Mari Esashi 江指万里**	Do Hosts and Parasites Share the Same History? Comparative Phylogeography of a Scops Owl and I ts Bird-Parasitic Fly across Japan and Taiwan
09:30–09:45 **C5-03**	**Jui-Hung Tai 戴睿紘** National Taiwan University	Repeated introductions and asymmetric reproductive interference threaten native freshwater fishes in Taiwan
09:45–10:00 **C5-04**	**Shih-Fan Chan 詹仕凡** Biodiversity Research Center, Academia Sinica	The evolution of conditional cooperation: divergent response rules in two burying beetle populations
10:00–10:15 **C5-05**	**Chen-Ying Kuo 郭蓁穎**	Social information outweighs resource quality in roost-site selection by disk-winged bats
10:15–10:30 **C5-06**	**Hung-Chia Chang 張宏嘉** Department of Life Science, National Taiwan Normal University	Does stress change their handedness? Behavioral lateralization in the Northern snake-necked turtle

11:00–11:30 *Coffee break*

11:30–12:20	CLOSING PLENARY LECTURE **Chien-Hsiang Lin 林千翔** *When the ocean gets too warm: lessons from ancient fish communities*	B1C AUDITORIUM
12:20–12:25	The 9th Taiwan–Japan Ecology Workshop: Kyushu University, 2028 · Tomonori Kume 久米朋宣	B1C AUDITORIUM
12:25	*Lunch and close of the workshop*	IBMS 1F DINING AREA

POSTER SESSION 1

Friday 6 November · core time 17:30–19:30, with drinks · Interdisciplinary Research Building, 1F

Plankton and Microbial Ecology

P01	**Wei Chen 陳韡** Institute of Oceanography, National Taiwan University	Stoichiometric imbalance affects competitive superiority in marine herbivorous zooplankton communities
P02	**Pin-Yi Chen 陳品嶧** Institute of Oceanography, National Taiwan University	Trophic strategies of nanoplankton across environmental gradients
P03	**Shi-Rong Su 蘇士榮** National Taiwan University	Coupling the Dilution Method and Stable Isotope Analysis to Investigate Trophic Structure and Energy Flow in Planktonic Food Webs
P04	**Yen-Po Wang 王彥博** National Taiwan University	Comparing the Effects of Viral Lysis and Nanoflagellate Grazing on DOC Quantity and Bioavailability
P05	**Mao-Che Huang 黃茂哲** Department of Bioenvironmental Systems Engineering, National Taiwan University	Seasonal comparison of predation rate and viral lysis rate
P06	**Yun-Hsin Lee 李昀芯** Institute of Oceanography, National Taiwan University	High-Frequency Lagrangian Sampling Reveals a Delayed Population Response of Marine Group II Archaea to Environmental Perturbation
P07	**Yi-Ru Hsieh 謝易儒** National Cheng Kung University	High-frequency assessment of microbial plankton regulation and disturbance responses in an oyster-farming lagoon
P08	**Estefania Lourdres Anak Sima** National Taiwan University	Seasonal Pattern in the Size-Trophic Position Relationship of a Subtropical Reservoir Plankton Community
P09	**Hsin-Hsin Hsiao 蕭欣心**	Influence of terrestrial inputs on the community respiration rate of FeiTsui Reservoir

Fishes, Corals and the Sea

P10	**Fan-Syuan Lai 賴梵瑄** Institute of Oceanography, National Taiwan University	Causal effects of population dynamics, prey, environment, and fishing on fish population spatial variability in the North Sea
P11	**You-Ci Fan 范祐慈** Institute of Oceanography, National Taiwan University	Environmental Change Effects on Community Assembly of North Sea Fishes: Insights from Functional and Phylogenetic Community Structure
P12	**Chun Fei Cheung** Biodiversity Research Center, Academia Sinica	Larger Juveniles under Fluctuating Temperatures due to Prolonged Larval Duration: Intertidal Fish as a Case Study
P13	**Shan-En Chen 陳善恩** Biodiversity Research Center, Academia Sinica	Benthic Habitat Mapping via Foundation Model Representation Using A Multi-Modal Snorkeling Survey
P14	**Ee Suan Tan** University of the Ryukyus	From Moonlight to Spawning: Regulation of GVBD in Galaxea fascicularis
P15	**Fong-Huei Lin** Biodiversity Research Center, Academia Sinica	Sunset manipulation suggests that sunset cues and an endogenous clock both contribute to reproductive timing in Dipsastraea speciosa
P16	**Hidemi Shimbo 新保秀美** University of the Ryukyus	Bleaching as an opportunity for corals to establish new algal partnerships

Hosts and Parasites

P17	**Kenji Toyota** 豊田賢治 Hiroshima University	Morphological changes induced by parasitic crustaceans in decapod crustacean hosts
P18	**Hsuan-Wien Chen** 陳宣汶 National Chiayi University	Parasite Spillover and Spillback Between Invasive African Sacred Ibises and Native Herons in Taiwan

Mosquito Population Dynamics

P19	**Yun-Wei Chou** 周昀韋 Institute of Oceanography, National Taiwan University	Unraveling Time-Varying Environmental Effects on M osquito Population Dynamics in Tainan, Taiwan
P20	**Hsin-Huan Chuang** 莊昕寰 Institute of Oceanography, National Taiwan University	Predicting Nonlinear Dynamics of M osquito Populations in Tainan with Environmental Data
P21	**Jhen Liu** 劉鎮 National Taiwan Normal University	Indirect effects of deforestation and elevation shape abundance of *Aedes albopictus* through temperature, water turbidity, and invertebrate natural enemies

Landscapes, Urban Ecology and Conservation

P22	**Jo-Hsun Chiu** 邱若熏 Institute of Ecology and Evolutionary Biology, National Taiwan University	Human-dominated landscapes support high diversity of wintering birds
P23	**Yu-Zhi Zhang** 張宇智 Hydrotech Research Institute, National Taiwan University	Temporal Partitioning and Co-existence S trategies of Medium-to-Large Mammals across Natural and Plantation F orests
P24	**Wei-Chien Tsai** 蔡濰謙 Department of Life Science, National Taiwan Normal University	Comparison of Population Structure and Morphology of the Yellow Pond Turtle (Mauremys mutica) between Urban Farmland and a Forest Aquatic Pond
P25	**Sheng-Hung Lin** Biodiversity Research Center, Academia Sinica	Improving bearing angle estimation of sika deer (Cervus nippon taiouanus) vocalizations in complex soundscapes
P26	**Chuan-Kai Hsieh** 謝傳鎧 Department of Soil and Water Conservation, National Chung Hsing University	Aligning remote sensing and field survey in watershed health assessment: a case study in Central Taiwan

Animal Behaviour and Welfare

P27	**Po-Wei Huang** 黃柏維 Department of Life Science, National Taiwan Normal University	Container size, behavioral responses, and welfare of corn snakes (Pantherophis guttatus) under transport-related conditions
P28	**Janus Olajuan Boediman** 黃義安 National Taiwan University	Camouflage strategies in moss and lichen morphs of Trachyzulpha formosana (Orthoptera: Tettigoniidae)

POSTER SESSION 2

Saturday 7 November · core time 16:00–18:00, with drinks · Interdisciplinary Research Building, 1F

Theory: Populations and Communities

P29	**Jing-Lun Huang** 黃靖倫 Hydrotech Research Institute, National Taiwan University	The utility of nestedness structure for predicting species richness
P30	**Song-Yang Tu** 塗頌揚 National Taiwan University	A Study on the Choice of Response Variables in Diversity Research
P31	**Cong Zhou** 周聡 National Institute of Genetics	How rapid evolution of mutualism affects the coexistence of competing species
P32	**Hsiang-Chih Lo** 羅香之 Institute of Ecology and Evolutionary Biology, National Taiwan University	How to conduct invasion analysis for structured populations? Analytical insights and numerical recipes

VENUE AND ACCESS

Institute of Biomedical Sciences (IBMS), Academia Sinica · 128 Academia Road, Section 2, Nangang District, Taipei 11529

Academia Sinica North Campus. 1 IBMS: talks and registration. 2 Interdisciplinary Research Building: posters (1F) and banquet (7F). The Academia Sinica bus stop (中研院站) is beside the Main Entrance; IBMS is a short walk in, on Life Science Road.

ON SITE

IBMS 1F LOBBY

Registration desk; an AED is kept beside the desk

B1C AUDITORIUM

Opening, plenary lectures and parallel sessions (264 seats)

B1B AUDITORIUM

Parallel sessions (90 seats)

IBMS 1F DINING AREA

Lunch on Saturday and S unday

INTERDISCIPLINARY RESEARCH BUILDING

1F: poster sessions, F riday and Saturday
7F: banquet, Saturday

GETTING HERE

MRT AND BUS
MRT Bannan (Blue) Line to Taipei Nangang Exhibition Center, Exit 5; cross the road for bus 205, 212, 276, 306, 620, 645, 679, S1 (小1), S5 (小5) or S12 (小12). From Nangang Station, Exit 2, turn left for bus 212 (express or shuttle), 270 or BL25 (藍25). Alight at *Academia Sinica* (中研院).

TRAIN
Taiwan Railway or High Speed Rail to Nangang Station, then bus 205, 212, 276, 306, 679, S5 or S12.

AIRPORTS
Taoyuan: Airport MRT to Taipei Main Station, then the Bannan Line as above. Songshan: MRT Wenhu (Brown) Line to Taipei Nangang Exhibition Center, then a bus as above. Kuo-Kuang bus 1843 to Taoyuan Airport leaves from Nangang Exhibition Center (Jingmao 2nd Road), 07:10–15:10.

TAXI
Ask for 中央研究院 院區大門 (Academia Sinica Main Entrance).

CAR
Leave an ID at the gate and park in B2 of the Humanities and Social Sciences Building: 30 minutes free, then NT$20 an hour. Motorcycles may not enter the campus.

Oral presentation guidelines

IBMS B1C & B1B Auditoriums · Registration desk: IBMS 1F lobby

Thank you for helping us keep the workshop running smoothly. Please prepare your slides and submit your file ahead of your session.

> **Friday afternoon speakers (6 November): please upload your slides in advance, before arriving at the venue.**

SUBMIT YOUR SLIDES

For talks on 7 or 8 November, please ensure that your file has been uploaded or submitted to the registration desk by **09:00 on the day of your talk**, or before your session begins if earlier.

See page 19 of the programme booklet for the slide upload link and instructions. The access password will be provided separately by the organizers.

Laptops will be available at the registration desk and in each meeting room for presenters who still need to upload their files.

PREPARING & PRESENTING

Please prepare your slides in **16:9 widescreen format**. For compatibility, we recommend using the default settings in **Windows 11** and **PowerPoint 2024**. Accepted file formats are **.pptx** and **.pdf**.

All presentations must use the computers provided by the organizers. To avoid delays when changing speakers, personal laptops cannot be used for presentations.

CONTRIBUTED TALKS · 12 + 3 MINUTES

Each contributed oral presentation has **12 minutes for the talk**, followed by **3 minutes for questions**. Bell reminders will sound at the following times:

10 min	Two minutes of speaking time remain.
12 min	Please finish your talk and begin the Q&A.
15 min	Please conclude the Q&A promptly.

Symposium speakers: talk lengths vary by symposium. Please follow the schedule for your session and the instructions of your session chair.

Poster presentation guidelines

1F, Interdisciplinary Research Building · Academia Sinica, Taipei · View venue map

Please display your poster on the board bearing your assigned poster number.

A0
PORTRAIT

84.1 × 118.9 cm

WIDTH × HEIGHT

Please prepare and print an **A0 portrait poster: 84.1 cm wide × 118.9 cm high**. The boards are in portrait orientation; smaller posters are also welcome.

MOUNTING & REMOVAL

MOUNT YOUR POSTER

From 11:00

Friday 6 November 2026

REMOVE YOUR POSTER

Before 13:00

Sunday 8 November 2026

PRESENTATION SESSIONS

POSTER SESSION I

Friday 6 November · 17:30–19:30 — **P01–P28**

POSTER SESSION II

Saturday 7 November · 16:00–18:00 — **P29–P56**

Poster mounting supplies will be provided on site.

Please take care of your poster and remove it by the deadline. The organizers and venue cannot be responsible for its safekeeping. Posters left after the removal deadline may be taken down or discarded by the organizers.

Slide upload & filenames

For all oral, symposium and plenary speakers · Use your presentation ID

Please upload your slides in advance using the file-request link below. Your presentation ID appears beside your talk in this programme.

NAS10192 · SYNOLOGY DISKSTATION

https://nas1019.biodiv.tw:5001/sharing/BZstbaNY6

Access password: provided separately by the organizers.
Accepted formats: .pptx or .pdf

1 · ENTER YOUR PRESENTATION ID

In **Your name** (the uploader-name field), enter only your presentation ID, for example **C1-02**. Keep this entry exactly the same each time you upload files for that presentation.

2 · NAME YOUR FILE

PresentationID-LastName.pptx or **PresentationID-LastName.pdf**
Use your surname in English letters. Avoid spaces and special characters.

C1-02	Namfon Booncharoen	C1-02-Booncharoen.pptx
S1-01	Chi-Ying Lee	S1-01-Lee.pdf
C5-03	Jui-Hung Tai	C5-03-Tai.pptx
PL1	Chih-hao Hsieh	PL1-Hsieh.pptx
Closing	Chien-Hsiang Lin	Closing-Lin.pdf

3 · UPLOAD AND CONFIRM

Choose **Add files**, select your file, and click **Upload**. Wait for confirmation that the upload is complete before closing the page.

Revised slides: append **-v2**, **-v3**, etc. before the extension (for example, C1-02-Booncharoen-v2.pptx). Keep **Your name** unchanged. The AV team will use the highest numbered version.

PL1, PL2 and PL3 identify the three plenary lectures; Closing identifies the closing plenary. S4 IDs follow the confirmed speaking order in Programme v3. Upload deadlines and technical requirements are on page 17.
